RE: Request for Potable Water

Dear Mr. Brewer,

As discussed during our meeting on December 3, 2019, Turk Station Pistachio, LLC is requesting a water service agreement with the City of Coalinga to serve our proposed pistachio huller. The pistachio huller will be located north of West Phelps Avenue between West Gale and West Calavaras Avenues. It is our understanding that an existing meter adjacent to the proposed site may be considered for approval by the City .

The water service agreement will be limited to permanent facilities serving up to 22 year-round employees. The hulling operation will use sanitized process water from another source. During the approximate two-month hulling season, Turk Station Pistachio will hire additional temporary employees. These temporary employees will be provided with bottled water and portable toilets, which will not increase the plant's potable water requirements.

If you have any questions regarding this request, please don't hesitate to call me at the number below.

Sincerely,

William B. Gleason
